## HUSKY PITLESS UNIT for 4" DOMESTIC WELLS

The Husky offers a unique design that incorporates an actuator rod for simple and quick insertion and withdrawal of the inner drop fitting assembly. The inner drop fitting assembly centers the drop pipe and submersible pump in the well and uses an o-ring to properly seal the connection to the discharge port. The Husky is constructed of high quality brass, steel, and stainless steel components for long term durability. The unit has a male NPT threaded connection to the well casing.

Model No.	Well Size I.D.	Drop Pipe Tapping	Discharge Tapping	Wt. (lbs.)
4HU125-4	4"	1-1/4" FNPT	1-1/4" FNPT	81
4HU125-5	4"	1-1/4" FNPT	1-1/4" FNPT	95
4HU125-6	4"	1-1/4" FNPT	1-1/4" FNPT	109
