## PJ SHALLOW WELL PITLESS UNITS FOR CONCENTRIC PIPING

### EXPLANATION OF ORDER NUMBERS

3	PJ	2	3	C	B	W	X	1	1
Bury Depth in Feet	Pitless Unit for Jet & Shallow Well Pumps	Well Size I.D.	Upper Case I.D.	Discharge C-Concentric P-Parallel	Galvanized Upper Case	Cap W-Watertight	Spool X-Closed E-Equal Pressure Passage	No. of Drop Pipes	Suction Tapping I.D. used only on Single Pipe Concentric & Shallow Well Units

Order Number	Weight	General Information
2PJ23CBWE112	46	
3PJ23CBWE112	54	Well Casing I.D. = 2
4PJ23CBWE112	61	Upper Case I.D. = 3
5PJ23CBWE112	70	Pressure Pipe = 2"
6PJ23CBWE112	78	Suction Pipe = 1-1/4"
7PJ23CBWE112	86	Suction Drop Pipe = 1-1/4"
8PJ23CBWE112	94	

The **SHALLOW WELL** Unit spool is tapped for a suction drop pipe and has a vertical passage which equalizes the upper case and well casing pressures. The discharge body is tapped for the suction and concentric pressure pipes which are respectively connected to the pump suction and pressure ports. There is no passage extending from the pressure pipe to the well casing.
