## IDEAL CLAMPS

Ideal manufactures a broad line of standard worm drive and specialty hose clamps designed to satisfy a wide range of fastening applications.

They offer all or part stainless steel construction and a full size 9/16" band. The wider band provides 12-1/2% more sealing surface area than conventional 1/2" bands.

Ideal Clamps are available with 1/4", 5/16" or 3/8" hex-head and safety collared screws, in stainless or zinc plated, dichromated, carbon steel.

Their completely mechanical design locks the one piece housing directly to the band using the full strength of the material to provide maximum anti-shear protection. No spot welds to rupture under stress or corrosion. And a one piece housing cannot come apart under high loading.

## FULL SIZE WORM DRIVE CLAMPS

**Hy-Gear** - The industry standard, versatile Hy-gear clamps have a wide range of applications. From simple home and auto repair to heavy duty industrial uses, you can be sure there's a Hy-Gear clamp to handle the job.

**Combo-Hex** - These clamps are the clamps professional mechanics choose most often. Particularly helpful in hard to reach areas, they feature an exclusive safety collared deep slotted screw design that prevents screwdrivers from slipping and puncturing the hose wall. Combo-Hex clamps can be installed with a screwdriver, nutdriver or socket wrench.

**Hy-Gear, 50 Series** - Most popular full size clamp. Screw: 5/16" hex head. Zinc plated, yellow dichromate, carbon steel. Band and housing: 9/16" wide. Stainless Steel.

**Hy-Gear, 63 Series** - A marine grade clamp for boating applications and other corrosive environments. High nickel alloy stainless steel meets the demands of inground and marine use. Screw: 5/16" hex-head. Corrosion resistant 300 grade stainless steel. Band and housing: 9/16" wide. 300 grade stainless steel.

**Hy-Gear, 64 Series** - All stainless steel construction especially suited to industrial applications. Screw: 3/8" hex-head. 410 grade stainless steel. Band and housing: 9/16" wide. 300 grade stainless steel.

**Hy-Gear, 68 Series** - All stainless steel construction especially suited to industrial applications. Screw: 5/16" hex-head. 410 grade stainless steel. Band and housing: 9/16" wide. 300 grade stainless steel.

**Combo-Hex, 54 Series** - The professional mechanic's choice. Screw: 3/8" safety collared hex-head. Zinc plated, yellow dichromate, carbon steel. Band and housing: 9/16" wide. Stainless steel.
