# Monitor® WELL CAPS

Vermin Proof Aluminum Well Cap Instruction Sheet  
Code approved in Wisconsin, Minnesota, Illinois, Michigan & Iowa

## QUALITY FEATURES:

- All ground screw and bolts are stainless steel, will not corrode.
- 3/8" Tenzalloy alloy anchor ring for added strength.
- Custom Cap personalization available.
- Molded Kroyton "G" 3/16" gasket for all season flexibility.

## INSTRUCTIONS:

1. Place anchor ring approximately 5/8" over well casing and tighten (3) bolts
2. Place gasket over well casing and align with anchor ring.
3. Place wire guard over casing and insert electrical ground screw.
4. Loosely attach cover plate to anchor ring with (5) bolts
5. To properly seal casing, loosen anchor ring bolts and tighten cover plate bolts evenly.
6. Retighten anchor ring bolts.
