MONITOR® SNORKEL WELL CAP VENT

Ideal preventive measure where spring rains and flooding in low lying areas are a problem. Designed to attach to 1 1/4" NPT pipe to vent port on cap. Gives protection up to 20 feet under water, when used with a Premium Watertight Cap, Monitor Cap Cable Seals (ordered separately) and the Snorkel Vent. Open vent area meets or exceeds 10 State Code, Michigan, Wisconsin and PAS requirements.

SNORKEL WELL CAP VENT
